Summary

From agency to startup - I'm a web developer leveraging a background in technical project management. Recently earned a certificate in Full-Stack Development from the University of California San Diego, finishing in the top 10% of the class. Project management background, combined with adept client communication skills & agency-level marketing knowledge, make for a strong addition to any engineering team.

Experience

Web Developer @ alwaysAI

June 2020 - Present // San Diego, CA

- Led redesign of marketing site with Next.js & Tailwind CSS. Oversaw 2 other devs & played key role estimating, managing project timeline, & building components.
- Rebuilt blog from ground-up with React, Next.js, TypeScript, & HubSpot as a headless CMS. Project spanned the whole stack, from front-end to creating a Node/Express server & AWS Lambda functions.
- Implemented functional & design overhaul of user signup/signin pages that led to 2x increase in users logging in post-signup.
- Leverage agency experience to provide UX & SEO insights/strategy.

Technical Project Manager @ Red Door Interactive

Feb 2017 - Nov 2019 // San Diego, CA

- Oversaw the design, development, & launch of an e-commerce website for a skincare company.
- Spearheaded internal effort to evolve the company's internal resourcing & delivery monitoring processes through the integration of business intelligence tools. This allowed leadership to be more agile in response to ever-changing resourcing needs.
- Developed detailed project plans for both Agile & Waterfall projects, coordinated project activities, & identified resources needed to complete project tasks

Technology Project Manager @ RR Donnelley

March 2014 - Feb 2017 // Washington D.C. Metro Area

- Coordinated a large-scale project for a Fortune 500 company from inception through completion & was responsible for reporting project status to senior management.
- Maintained & enhanced client websites using HTML, CSS, JavaScript, & jQuery.

Leadership Development Associate @ RR Donnelley

July 2012 - Feb 2014 // Washington D.C. Metro Area

- Completed Leadership Development Program that involved multiple-month rotations across different business units: operations, accounting, technology, customer service, job costing, & fulfillment.
