## Summary

Full-stack developer leveraging a background in technical project management to build high-quality websites and applications. Recently earned a certificate in Full-Stack Development from the University of California San Diego, finishing in the top 10% of the class. Project management background, combined with adept communication and problem-solving skills, make for a strong addition to any engineering team.

## Experience

### Technical Project Manager @ Red Door Interactive

Feb 2017 - Nov 2019 // San Diego, CA

- Managed planning, execution, team meetings, and client communications for multiple and concurrent cross-functional projects.
- Developed detailed project plans for both Agile and Waterfall projects, coordinated project activities, and identified resources needed to complete project tasks
- Oversaw the design, development, and launch of an e-commerce website for a skincare company.
- Spearheaded internal effort to evolve the company's internal resourcing and delivery monitoring processes through the integration of business intelligence tools. This allowed leadership to be more agile in response to ever-changing resourcing needs.
- Worked with clients and development team to prioritize and validate functional/technical requirements.

### Technology Project Manager @ RR Donnelley

March 2014 - Feb 2017 // Washington D.C. Metro Area

- Led technology projects in a deadline driven environment that married digital technology and physical production.
- Coordinated a large-scale project for a Fortune 500 company from inception through completion and was responsible for reporting project status to senior management.
- Maintained and enhanced client websites using HTML, CSS, JavaScript, and jQuery.

### Leadership Development Associate @ RR Donnelley

July 2012 - Feb 2014 // Washington D.C. Metro Area

- Completed Leadership Development Program which involved multiple-month rotations across different business units: operations, accounting, technology, customer service, job costing, and fulfillment.
- Acted as accounts receivables specialist responsible for invoicing, developing reports to detail aging and past due accounts, and collections.
- Participated in the Leadership Development Mentor Program to provide support and guidance for new, first-year associates.

## Skills
