ADA RACHEL OYEOKA

FULL STACK WEB DEVELOPER

adarachelofficial@gmail.com | GitHub | LinkedIn | Twitter | AngelList | Hashnode

SUMMARY

I'm Ada Rachel, a full-stack developer born in Michigan, USA, and currently based in Lagos, Nigeria. My passion lies in creating web applications that elegantly balance user needs and business objectives. I am excited to contribute my skills to your team.

SKILLS

FRONT-END: *HTML5, CSS3, Bootstrap, Bulma, Javascript* (ES6, Webpack), *ReactJS*
BACK-END: *NodeJS, PHP, MySQL, Wordpress, Ruby, Rails, ExpressJS, MongoDB.*
TOOLS: *Git, GitHub, Gitflow, Jest, Mobile/Responsive Development, TDD.*
Professional: *Remote Pair-Programming, Teamwork, Mentoring, Easily Adaptable.*

EXPERIENCE

HIGHLIGHTED PERSONAL PROJECTS   Remote
Full-Stack Web Development Student   September, 2022 – Present

Encompassed a comprehensive understanding of intermediate and advanced concepts. Developed expertise in key technologies such as JavaScript, Git, Data Structures and Algorithms. Showcased the ability to apply acquired knowledge through the completion of **multiple full-stack projects**, both independently and in collaboration through pair-programming methodologies.

TV Show QUIZ Game — HTML, CSS and Javascript.
Priscilla's Restaurant — HTML & CSS.
TO-DO List Web App — HTML, CSS, Javascript, Webpack, EcmaScript6

MICROVERSE
SAN FRANCISCO, CA   Remote
Mentor (Volunteer)   February, 2023 – Present

As a Student Mentor Volunteer at Microverse, I provided guidance and motivation to students during their onboarding in their first few weeks at the program. In this role, I was responsible for helping new students navigate the program's requirements, providing them with advice on how to succeed, and helping them to build confidence in their abilities.

Some of my specific responsibilities as a Student Mentor Volunteer included:

- Meeting with new students individually to discuss their goals and aspirations.
- Providing guidance on how to navigate the program's requirements and expectations.
- Developing personalized plans for each student based on their strengths and weaknesses.
- Providing ongoing support and encouragement to help students stay on track.
- Collaborating with program staff to identify areas where additional support was needed.
- Participating in program events and activities to help students feel engaged.

THRONE OF GOLD BEAUTY SALON,
GREATER ACCRA, GHANA
Hairdresser

On-SIte
November, 2020 – August, 2022

- During my nearly two years as a hairdresser, I developed an exceptional eye for detail and a meticulous approach. These qualities seamlessly transitioned into my journey as a web developer, where I write clean code, ensure seamless user experiences, and apply my creative flair to design visually captivating websites.
- With a customer-centric mindset, I prioritize client needs and deliver exceptional service.
- Effective time management skills, honed through juggling multiple appointments, allow me to consistently meet deadlines and deliver high-quality work.
- Continuously seeking growth, I stay ahead of the curve by actively learning and adopting new technologies, tools, and coding practices. I am excited to leverage my diverse skill set and transferable experiences to create impactful web solutions.

EDUCATION

MICROVERSE
SAN FRANCISCO, CA
Remote Full Stack Web Development Program, Full Time

September, 2022 – August, 2023

Enrolled in the Full Stack Web Development 2022/2023 program at Microverse, where I am diligently sharpening my skills, collaborating with a dynamic community of passionate developers, and actively participating in exciting projects.

Committed over 1300 hours to mastering advanced concepts including algorithms, data structures, and full-stack development, while concurrently demonstrating expertise through the successful execution of projects utilizing Ruby, Rails, JavaScript, React, and Redux.

Proficiently applied remote pair-programming techniques, leveraging GitHub, industry-standard gitflow, and daily standups to effectively communicate and collaborate with international remote developers, ensuring seamless project delivery.

IPMC COLLEGE OF TECHNOLOGY
GREATER ACCRA, GHANA
Diploma, Software Engineering
